

COVID-19: Stay Home from School Procedures

Self-quarantine is recommended for students and staff who are experiencing symptoms and/or who have been exposed to COVID-19.

Temperature Above 100.4

Stay at home if your temperature is above 100.4. Contact a physician and notify your home campus.

Other Symptoms

Stay at home if you have a sore throat or other signs of illness, like a cough, diarrhea, severe headache, vomiting, body aches, shortness of breath/breathing difficulty or newly developed loss of taste or smell. Contact a physician and notify your home campus.

Close Contact

Stay at home if you have had close contact with someone who has COVID-19. We follow the CDC's definition of close contact: If you have spent 15 or more minutes within 6 ft. of someone with COVID-19, stay home, contact a physician, and please notify your home campus.

Staying at Home & Schoolwork

Prioritize your health when you are at home. Your coursework in all classes is available in Google Classroom. If you have symptoms, rest up: Your coursework is available for you when you are feeling better. If you are symptom free, work to stay up-to-date in your classes. Email your teachers for any assistance. They are ready to help.

Awaiting a Test Result

Stay at home if you are awaiting a COVID-19 test result. Please notify your home campus if the test result is positive.
