

## FUTURE AGENTS IN TRAINING (FAIT) FBI Little Rock Field Office – Fort Smith Resident Agency

*FAIT is a relatively new program initiated to provide exposure of FBI investigative experiences to young motivated minds.*

**How to become a FAIT Student?** Each spring the Little Rock Field Office will canvass for applicants across schools in Arkansas. The applications are sent to school counselors and distributed accordingly. The application process includes an essay portion as well as a background check. In order to apply, a student must be nominated by a school counselor, teacher or principal.

The selected applicant will be notified by email from the FBI if selected as a finalist. Late applications are not accepted.

**What is the next step?** The FBI is constantly looking to expand its workforce. The FAIT program is a gateway into a future with the FBI. The FBI recruits students at both the undergraduate and graduate level and fosters the next generation of FBI professionals through a number of programs to include: Volunteer Internship Program, Honors Internship Program, Cyber Internship Program and the Visiting Science Program. You may visit [www.fbiagentedu.org/fbi-internships](http://www.fbiagentedu.org/fbi-internships) to learn more about these programs.

### FAIT FAQs

- The course is held in **Fort Smith, Arkansas**, usually on three consecutive Fridays.
- Letters can be provided to your school to document your participation.
- Students who are at least 16 years of age and have not graduated high school yet are eligible to attend.
- The program will never place a student in a dangerous situation.  
All simulations are staged and all participants are trained law enforcement personnel.
- The class has an enrollment of 28 students. These students were put to the test in the following capacities:  
interview skills, forensic investigation and live arrest scenarios.
