

Sample Academic Plans

Arkansas Act 930 of 2017 requires that Arkansas school districts will develop student success plans for students by the end of 8th grade, beginning in the 2018-2019 school year. This plan is a personalized education plan intended to assist students with achieving readiness for college, career, and community engagement. The student success plan shall guide the student along the pathway to graduation, address accelerated learning opportunities, address academic deficits and interventions, and include college and career planning components.

Each 8th grade family should be scheduling their individual planning appointment online with their HS. See the links sent in our emails and announcements. Sample plans are posted below. This collection may be updated through this spring to help you. Families are encouraged to peruse these plans to get ideas.

Gray shading denotes that a class is an academic college credit, taken through NWACC, on a college transcript, that will transfer to an AR university and some others out-of-state.
