

December 2019

8<sup>th</sup> Grade Families:

We're excited to welcome your 8th grader to high school next year.

We draft a Student Success Plan (SSP) or four-year plan for high school courses for each rising 9th grader. The plan will be updated annually and will address accelerated learning options, academic deficits and interventions and include college and career planning components.

We're proud to offer you and your student time with our academic counselors, one on one, in which your child will have the opportunity to begin customizing his or her plan. Appointments are available from January 13 until Spring Break. Schedule your appointment today.
